LICENSE AGREEMENT

This UnRisk FACTORY License Agreement ("Agreement") is a legal agreement between you (either an individual or a single entity known as "Customer") and MathConsult GmbH ("MCO"), which holds copyrights of a proprietary computer software and "on-line" or electronic documentation and associated media and printed materials (collectively known as "UnRis FACTORY" or "Software"). By installing, copying, or otherwise using the Software or any Software Updates, Customer agrees to be bound by the terms of this Agreement. If Customer does not agree to the terms of this Agreement, do not install, copy, or use the Software, including all Software Updates that Customer receives as part of the Software (each, an "Update"). By installing, copying, or otherwise using an Update, Customer agrees to be bound by the additional license terms that accompany such Update. If Customer does not agree to the terms of the additional license terms that accompany the Update, disregard the Update and the additional license terms that accompany the Update. In this event, Customer's rights to use the Software shall continue to be governed by the then-existing Agreement.

LICENSE TYPE

Grid License.

The License Agreement allows one Customer to run UnRisk FACTORY on a certain number of "Grid-Units" at one time. One Grid-Unit supports 8 core processes, represented by multi-core computers, clusters or networks, managed by the UnRisk FACTORY software.

The Software is licensed, not sold. Customer may not loan, rent or license the software or the manual.
